

Prep 2024

Transition Program

Our Prep Transition Program aims to provide our 2024 Kyabram P-12 College students with an opportunity to have a smooth, happy and exciting start to their school life. During transition sessions, students participate in engaging familiarisation activities, while spending time getting to know their possible classmates and becoming confident in the school surroundings. Our sessions include interactive literacy and numeracy activities, play based learning, as well as specialist activities including Visual Art, Performing Arts and Physical Education. Students will participate in a range of learning environments and will meet a variety of staff, including specialist teachers.

Transition sessions are offered on the following dates for children enrolled to attend Kyabram P-12 College in 2024.

Wednesday 25th October - 2:30pm - 3:15pm

Wednesday 15th November - 2:30pm - 3:15pm

Wednesday 29th November - 2:30pm - 3:15pm

Orientation Day - Tuesday 12th December 9:00am-12:00pm

Children will experience a real school morning. They will need to bring a morning snack, drink and hat. At 12.00pm there will be a small presentation before going home.

At Kyabram P-12 College we value

RESPECT RESPONSIBILITY RESILIENCE
COMMUNITY DOING YOUR BEST

Kyabram P-12 College provides quality learning opportunities for all students in a positive, safe and supportive learning environment.

Phone: 03 5851 2100 Email: kyabram.p12@education.vic.gov.au

Community

At Kyabram P-12 College we care about our Community. Our relationships within the community are built on respect and trust, as well as a shared responsibility for our school and town. We are proud of our community support and participation, particularly at school events such as our Hello Night, Assemblies, Junior Park Rangers, Primary Singers, sports days and morning

Learning Together

At Kyabram P-12 College our focus is on quality teaching and learning, where staff know and understand students' strengths and areas for improvement. Our staff analyse student data to design learning programs, to cater for all abilities by explicitly teaching at each child's point of need. Students are challenged and given time to reflect on their learning in order to set realistic goals and targets.

Developmental Play

Our Prep classrooms foster students' interests through our Discovery Program. Through play, students are able to be risk takers in a safe environment, problem solve, build relationships and skills to be a team member and effectively communicate. Targeted teaching happens during this time, supporting students to build skills in literacy, numeracy and developmental areas such as oral language, identity, wellbeing and community.
